FRIDAY, SEPTEMBER 24, 1875.

PRESIDENTIAL NOMINEES.

The name of Senator Frelinghuysen is being prominently brought forward in the East as a candidate for President by the Republican party. He is an able, strong man, of unexceptionable moral character, above any suspicion of meanness or dishonesty, consistent Republican, and beloved and respected in his own State, New Jersey. The manner in which his name is being received generally is evidence that he would be a strong candidate before the people. A leading Eastern paper says of him:

"Where Mr. Frelinghuysen is best known he is best esteemed, and no act of his that we have knowledge of has ever lowered him in the estimation of the American public. He is one of our very best and safest men. He is intellectually strong; and religiously and morally his standing cannot be excelled. He would make a splendid President—one whose integrity would never be questioned, and whose grasp of public affairs would be broad and catholic. In selecting him we could not do better—we might do worse. That's our opinion."

Gen. Phil. Sheridan, who is now "doing" this Coast is very favorably mentioned in this connection. "Little Phil" would beyond question make a strong candidate. He would run well with the Irish—who are mostly Democrats—and thus make a severe inroad on the opposition. But his Louisana record would lose him many votes, and the fact of his wife being a Catholic would also operate against him, for there are a great many people opposed to further political power of the Pope, and religious prejudice would, to a certain extent, govern them. Phil, however is quite popular in these United States, and is the idol of the soldier boys.

But we prefer a civilian. Bristow, Secretary of the Treasury, is the strongest man, in our opinion, yet named. His official record, so far, has endeared him to the people, and with him in the Executive chair, they feel that the country would be safe. Moreover he is a "hard money" man, and the currency question will be the leading issue in the next campaign. It will win, too. It must, for further inflation will inevitably lead to bankruptcy. Bristow, from the West, for President, and Blaine, from the East, for Vice President, would make a fast double team for the Republicans, and easily win the race.

THE REDSKINS.—Indian affairs are far better managed in the Dominion of Canada than in this country. According to the last report of the Commissioners in charge of the matter across the frontier, the savage tribes have been converted into thrifty villagers by a process which combines common sense with a keen knowledge of human nature. The most fertile source of all our Indian wars is the cheating and knavery of white traders and Government agents. The Canadian authorities, by dealing honestly with the aborigines, earn their confidence and esteem, and achieve the work of civilization without the slightest trouble.

THE last number of the Weekly Stock Report has a statement of the assessments and dividends of the mines listed at the San Francisco Stock Board which will throw some light on the relative merits of the business with reference to incorporated mines in the Board. The total assessments this year amount to $37,469,063, and the dividends were $65,201,499.

A SPIRITUALIST over about Virginia City has prophesied that that city is to be destroyed by fire, and the Gold Hill *News* says many persons have packed their trunks ready to "light out" at any moment. The calamity is to take place within a few weeks.

GIBSON, the Osage Indian Agent, has been acquitted.

GOOD WORD FOR WADSWORTH.—The *Borax Miner*, published at Columbus, Esmoralda county, speaking of the roads leading to that town gives the Wadsworth route the preference in the following language:

As soon through the spectacles of the *Appeal*, the curley road through the White Mountains is a most inviting thoroughfare! It is "well watered and accessible at all seasons of the year." Mighels, the plain truth of the matter is, somebody has been "stuffing" you. The road from Teel's marsh to the junction with the old Carson and Aurora road is almost impassible for heavy teams at any season of the year. It is for the most part cut in deep and dangerous gorges. The teamster who ventures into it is in imminent peril of losing his property and perhaps his life in one of the cloudbursts which are so common in that section, and there is not even a possibility that any teamster could make his expenses hauling freight from Carson over that road to Columbus at the rates ruling for freight from Wadsworth here. The distance to Carson is at least thirty miles greater than to Wadsworth. The road to Wadsworth is never closed at any season of the year. The road from Teel's to the Junction is liable to be closed for months together, for in many places the cañons are so narrow that even a few inches of snow fall would furnish material enough to fill them with the drift. You will never succeed in getting the Columbus freight at Carson, because Nature has provided a better road another way. But if you should get influences to force it over the V. & T. road you will run into a new difficulty: We all know what an godly set of cormorants the managers of the Central Pacific road are; but if our shippers ever have the Virginia and Truckee bills to pay, they will learn that the C. P. crowd are angels of mercy when compared with the V. & T. people.

TO THE PEOPLE OF THE STATE OF NEVADA. — I am charged openly through the columns of the *Territorial Enterprise*, by Governor Bradley, with being a dishonest man, or worse. The accusation is made on an impression of the Governor's, backed by the testimony of a convict and a harlot. I shall immediately demand of the Board of Prison Commissioners a full investigation of every and all charges which can be brought against me. Until that investigation is made, and a verdict rendered, I respectfully ask a suspension of public opinion in the matter. P. C. HYMAN.

Carson City, Sept 22, 1875.

CASTOR beans escaped the ravages of Kansas grasshoppers, and there will be enough cold-drawn castor oil to warrant its use on pancakes, if people prefer it to syrup.

CALIFORNIA AT PHILADELPHIA.

Our neighbor over the mountains will make a fine showing at the Centennial, though some have feared that she was not displaying her usual energy. We clip the annexed from the San Francisco *Bulletin* of a late date, which goes to show what is being done:

Yesterday a representative of the *Bulletin* was admitted to the rooms of the Central Pacific building on Townsend street, where the superb collections of Pacific coast specimens for exhibition at Philadelphia are being stored away and classified. The exhibition will be made under the immediate auspices of the Company, although an urgent appeal has been received from the Smithsonian Institute, asking that the privilege of making the display be granted to that managment. For the past eighteen months the land department of the corporation has been industriously seeking out and and gathering together the finest mineral, cereal, ornithological and zoological collection ever secured on this coast. Besides this exhibit will embrace—in fact, already embraces—some of the largest collections of marine, land and fresh water shells ever shown. Moreover, specimens of all the coals of the Pacific region have been secured. They represent fully one hundred different grades, from the finest Shasta to the commonest slate mixed with stone. The timber of the coast is represented by specimens, green, polished and petrified. These are also cuts from old monarchs of the forest, whereon approximate estimates of the rainfall for two centuries past are made in the rings which indicate the yearly growth. To convince the incredulous ones of the accuracy of estimating the moisture of the past decades and centuries by this method, a butt cut is shown, which was taken from a tree planted seventeen years ago, and the records of the rainfall thereon engraved compared with the annual registers preserved on paper by the official meteorological societies. It is an easy task to satisfy the observer that the variation in the estimates is hardly perceptible, and on this basis the amount of moisture in the past is approximated.

It would require the space of an ordinary volume to mention the full list of specimens embraced in this collection, for they represent birds of every plumage, animals of every species, together with curious alkaline formations, pesolites, marble polished and rough, sandstone pumice, honeycombed lava light enough to float, fossilized fish, borings from artesian wells, curious relics of armor breastplates, fossil reptiles, entomological specimens, etc. In the line of cereals the tallest corn stalks and the heaviest sheaves of barley and wheat, together with thrashed grain in properly labeled bottles, are fitly represented. The mineral resources of the coast will be indexed by samples of copper and silver ore, gold quartz, nuggets, etc. The labor of gathering together the necessary specimens is not yet completed. From the early ripening grain of 1876 additional collections will be secured, and as new discoveries are made and curious relics found, efforts will be put forward to procure whatever there may be in them worthy of holding a place in the cabinet of the Company. The collection as it now stands has been classified with utmost care. The cabinet for the safe keeping of the rarest and most valuable shells is a model of beauty in design, and withal, convenient in its construction.

EUREKA VS. ELKO.—It seems that this case is not definitely settled yet. The Court has granted Attorney Wren additional time to file a statement for a new hearing of the case. Several strong decisions in favor of our side of the case have been discovered, and there can be no question that if the Supreme Court becomes convinced that it erred in its recent decision it will not hesitate to reverse the same. Such a course would afford the highest evidence of the integrity of the Court.—*Eureka Sentinel*.

THE Odd Fellows have determined to do their share toward making the Centennial year memorable. In September, 1876, there will be a grand celebration of Odd Fellows in Philadelphia, in which the various Encampments and Lodges in the United States are invited to participate.

THE RENO JOURNAL notes the contemplated founding of a Catholic Convent in that town. What with the proposed Episcopal Seminary, the Methodist ditto, if there established, and a convent, Reno bids fair to become the educational center of the State. It is well located for that purpose.—*Gold Hill News*.

PRISON. — We visited the State Prison yesterday in quest of an item, and this is the result: The wall has been completed all the way around up even with ground, filling the trench which was eight feet deep. On the south and west sides the walls are eight or ten feet high, while the other two sides are not being raised. Only sixteen men are at present employed—six masons, two cutters and eight labors. Rock is now being brought to the ground on cars in addition to that brought by the wagons. Several horses are used and conveying rock to the different parts, and two derricks are erected to raise the heavy rocks into position. It will be sometime yet before it will be ready to hold any one in durance vile.

APPOINTED.—The California Conference of the Methodist Church, finished its labors in San Francisco last Wednesday evening. Among the appointments we find the following: Jackson, Rev. A. J. Wells; Dixon and Binghampton, E. C. Arnold.

TICKET SALES.—On the 22d the sales of local tickets at the Central Pacific office amounted to $1564 30. The total sales of tickets for the month of September, up to the 22d, were $7,087 85. Who would own a railroad?

THOSE wishing to have special advertisements inserted in this paper during the Fair will please hand them in by next Thursday. Special rates will be given for that purpose.

ADJOURNED.—The Grand Jury met on the 22d, as per adjournment, and without transacting any business, adjourned again to meet on the 20th of October.

ONLY sixty-three bullion bricks transferred from the V. & T. train to the C. P. last Wednesday night, worth probably $200,000.

No criminal business in Justice Gilson's court yesterday.

V. & T. R. R. NOTES.

The managers of this big little railroad are making all necessary precautions to keep the road open throughout the entire coming Winter so that it will be an extraordinary occasion that will delay trains for even an hour.

Steel rails are being put in on all the dangerous portions, and the track well braced to prevent its spreading.

Men are now at work replacing the old iron rails with steel ones in the vicinity of the Lake View House. About four hundred tons are now on the ground. This will be sufficient to lay five and a half miles of track. There is also one hundred and seventy-five tons at the Washoe cañon, and two and a quarter miles will be laid here. Eventually the entire road will be laid from Reno to Carson with steel rails.

The road from Carson to Virginia is already laid with these rails, and new ties have also been placed in position over this portion of the road.

There is economy as well as safety in having the road of steel. These rails only cost one-fourth more than iron ones, and last nearly ten times as long.

The old iron rails are sold and shipped to the Pacific rolling mills of San Francisco.

The different culverts and bridges along the line of the road are being overhauled, and wherever repairs are needed the same are being made. In many places entirely new culverts have taken the place of the old ones.

The Company do not propose that the road shall be "blockaded" during the Winter, if a large expenditure of money at the present time will prevent it, and they think it will.

The Company have always been bothered more or less with the snow in Washoe Valley. Frequently when there was a fall of three inches, the main track would be covered with three feet. This was caused by the snow drifting up against the fences and then rebounding on the track. To obviate this the Company have torn down the wooden fences and in lieu thereof erected wire fences, so that the snow will drift right through, and thus do no harm These wires are filled with little "brads" and the cattle do not rub up against them more than once.

We visited the machine shops at Carson. These cover four or five blocks, and are the finest on the coast, far surpassing any that the Central Pacific have. Here the Company do all their own work, and find it a great saving. About one hundred men are kept constantly at work, and all of them are first class mechanics. Several engines are now in the shops being thoroughly overhauled, and will be turned out soon in a better condition than when they were new. Everything in and about these shops is of the most approved pattern and latest design—to be brief—they are complete in the fullest acceptation of the term. The only thing we regret is that they were not located in Reno.

WE inadvertently omitted to mention yesterday that B. F. Leete, President of the Nevada State Agricultural, Mining and Mechanical Society, also went below to attend the California Fair. With both President and Vice President there we know that they will find many things that will aid in making our Fair a grand success.

REAL ESTATE TRANSFER. — Hammond & Wilson have sold their lot and building on the corner of Plaza and North Virginia streets to a Mr. Ayer of Contra Costa, California, who will remove to Reno next Spring with his family. We believe Mr. Ayer intends opening a feed store.

A HOME.—Mr. Geo. Becker is the next man entitled to a large sized credit, mark. Friend George is putting up a residence that will be a credit to the town. It is situated on Commercial Row near De Bell's house. We hope George may live in it a hundred years.

SHERIDAN.—General Phil Sheridan and wife are expected in these parts in a few days en route to Virginia. Several prominent men of that place talk of meeting him here in a carriage and six, and the best band to be had, and escort him to the "bonanza" country.

SENATOR SARGENT and wife will pass through here next Sunday, on their way to Washington City.

DISTRICT COURT.—Last Wednesday evening the jury in the case of the State vs. Dwyer, charged with killing a man at Verdi by stamping him to death, received the case, and at about midnight returned with a verdict of acquittal.

Yesterday the following proceedings were had: In the case of L. D. Wickes vs. The Consolidated Poe Mining Company, the counsel for the defense showed to the Court that an undertaking had been filed in compliance with the order of the Court. Moved that the attachment be dismissed, and it was so ordered. The day was consumed in the trial of the Indian, McWinnemucca, who is charged with an assault with intent to kill one David Shaffer.

"DO UNTO OTHERS, ETC.—Last Wednesday evening ten men, six whites and four Indians, tried to "dead head" their way from Carson to Reno on top of a car of the passenger train. The conductor saw them there and allowed them to ride until they got to Ophir, when he informed them that he was not carrying deck hands and put them off in that dreary, desolate place, instead of putting them off at or near some station. The Indians were put off for trying to smuggle the white men through. The coldness of the night made this anything but pleasant.

A "MONOPOLY."—The JOURNAL has the field once more to itself, and consequently we are a "monopoly." We shall continue as usual to run a paper working particularly for the good of Reno, of Washoe county and of the State of Nevada. And shall continue as usual to pay all bills that may be incurred in so doing. In the meantime we bar no man from running another newspaper in Reno. The DAILY and WEEKLY JOURNAL will still be furnished at the old prices.

SECRETARY.—Mr. James H. Kinkead having resigned the Secretaryship of the Consolidated Poe Mining Company, a position he has held since its organization, the Trustees have elected Mr. James H. Borland to fill the vacancy. We testify to the fidelity and efficiency with which Mr. Kinkead discharged the duties of the office.

K. OF P.—Amity Lodge, No. 8, will hold its regular weekly meeting this evening. All members in good standing are requested to attend, as business of importance is to be transacted.

TOWN LOTS FOR SALE.—Any person wanting town lots in an eligible location will find it to their advantage to call on C. A. Richardson. *

JOHN SUNDERLAND STILL AHEAD.—John Sunderland has just returned from San Francisco with the largest and best selected stock of boots and shoes ever brought to Reno. He has goods to suit all prices and all people. He has a fine assortment of children's school shoes, which give more satisfaction than any shoe ever brought to this town. He is selling boots and shoes at panic prices. Call at his store and examine for yourself. He has also on hand and for sale, a fine assortment of shoemaker's findings, which he offers to the trade at a small advance over San Francisco prices. *

SELLING OFF AT COST.—Mrs. McNeeley offers her entire stock of goods for sale, at cost, for cash. The ladies of Reno and vicinity will do well to call early and secure bargains, which will be had for cash.*

NOTICE.—Mr. Nels. Greenman is no longer our authorized agent. Our patrons will govern themselves accordingly. SU LEE & Co. *

REMOVED.—The Misses Vance are now located on Virginia street, next door to the photograph gallery. They will receive at their dressmaking establishment and make to order in the latest styles, all kinds of plain and fancy sewing. *

MISCELLANEOUS.

DR. A. B. SPINNEY,

The Celebrated Specialist,

Well-known as founder of the Montreal (C. E.) Medical Institute and late Proprietor of the SPINNEY VILLE INFIRMARY, would most respectfully inform his patients and the afflicted generally that he will continue to treat chronic and private disease with unparalleled success.

LADIES AND GENTLEMEN,

Remember, that procrastination is the thief of time, so

COME AND BE HEALED!

It matters not what your troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

YOUNG MEN!

Who may be suffering from the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit five hundred dollars for every case of seminal weakness or private disease of any kind or character which he undertakes and fails to cure. He would therefore, say to the unfortunate sufferer who may read this notice, that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be in the first stage—remember you are approaching the last. If you are bordering upon the last, and are suffering some or all of its evil effects, remember that if you obstinately persist in procrastination, the time must come when the most skillful physician can render you no assistance; when the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. Then let not despair work itself upon your imagination, but avail yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grim death hurries you to a premature grave.

MIDDLE-AGED MEN!

There are many of the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weakening of the system in a manner the patient cannot account for; on examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin and milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

N. B.—Only an interview required in a majority of cases; balance of treatment can be conducted at home without interruption of business. All letters, or communications, strictly confidential.

Office Hours—10 to 1, 2 to 4, and 7 to 8. Sundays, from 2 to 4 only. Consultation, Free. Thorough examination and advice, $5.00.

Office, No. 188 SOUTH C STREET, Virginia City, where he will be pleased to consult with all who may be suffering, from Chronic or Special Diseases.
